To the best of my knowledge these plans are drawn to comply with owner's and/ or builder's specifications and any changes made on them after printing will be done at the owner's and / or builder's expense . The contractor shall verify all dimensions and enclosed drawings. SMT Residential Design is not liable for errors once construction has begun . While every effort has been made in the preparation of this plan to avoid mistakes, the maker can not guarantee against human error. The contractor of the job must check all dimensions and other details prior to construction and be solely responsible thereafter.
